CAP WHACKER SETS

Protect Every Strike.

Designed for workshops, trailer manufacturers and service technicians, the Holroyd Cap Whackers Sets deliver consistent, professional results while reducing the risk of costly rework.

Manufactured from high-quality steel and precision machines for strength and durability, Holroyd Cap Whackers deliver consistent, reliable performance in workshops, trailer manufacturing and field service environments.
Built to last and built to perform.

KEY BENEFITS

- Evenly distributes striking force to prevent dents and disortion
- Protects dust caps and seals from unnecessary damage
- Delivers a clean, professional installation every time
- Reduces the risk of costly rework and component replacement
- High-quality steel contruction for long life and durability

HOW IT WORKS

3 simple steps for a secure fit

Install your dust cap in three simple steps while protecting it from dents, distortion and unnecessary damage.

1. **Position**
Place the Whacker over the dust cap.

2. **Align**
Ensure it sits evenly on dust cap ring

3. **Strike**
Strike the Whacker with a hammer until the dust cap is fully seated.

PROTECT EVERY INSTALLATION.

Traditional installation methods concentrate hammer impact on a single point, increasing the risk of denting, distortion and damage to the dust cap.
Holroyd Cap Whacker Sets are designed to distribute striking force evenly across the entire dust cap, helping to protect the component while delivering a cleaner, more consistent installation.
The result:

Holroyd Cap Whackers aren't just for installation. They can also be used to safely remove dust caps, helping prevent damage and allowing serviceable caps to be reused.

WITHOUT A WHACKER	WITH A CAP WHACKER
	
✗ Dents & distorts from direct impact	✓ Evenly distributes striking force
✗ Uneven fitment that leads to poor seal	✓ Helps maintain shape & integrity
✗ Frequent replacements required	✓ Reduces the risk of damage

COMPLETE CAP WHACKER SET

Includes all three Cap Whacker sizes and a durable display stand for a complete workshop solution.

- LM-SL
- 2T
- 3T
- Display stand

CDWSET
